(A)

In G.O.No.2096, Law (General) dated 19-6-1933, the Government prescribed the following special diets for tubercular prisoners in the Wellesley Sanatorium Jail, Bellary.

(i) Special acute No.1.
(ii) Special acute No.2.
(iii) Invalid diets.
(iv) Ordinary diets.

p-1 of (A)

2. Certain number of non-tubercular prisoners (C.class) are always detained in that jail to attend to prison duties such as sweeping, scavenging, drawing water and cooking. It has been the practice hitherto to transfer 'C' class prisoners from the local Central Jail for the purpose. The daily average number of non-tubercular prisoners for the year 1939 was 15.58. The number working at present is 11. This present strength is reported to be inadequate for the efficient upkeep of sanitation and for cooking purposes. The barest minimum required for the hard prison services is reported to be 20.

3. These non-tubercular prisoners detained in the Sanatorium Jail have been given the Ordinary diet No.4 of the Special Diets prescribed for the tubercular prisoners instead of 'C' class diet in Rule 347, Part I,

p-101 of the Jail Manual, Vol I (not to hand)

/P.T.O./

Part I, Volume II of the Madras Prison and Reformatory Manual. The irregular issue of the diet has been detected and the Superintendent was asked to report the circumstances under which non-tubercular prisoners have been dieted with Special Diet. The Medical Superintendent reports that ordinary diet (No.4) has been favourable to the non-tubercular prisoners as they have been exposed to infection while working in that Jail.

4. I am of the opinion that all the items in the Ordinary Diet No.4 are not quite essential to increase the resistence to infection. I have accordingly revised in consultation with the Medical Superintendent and propose a suitable diet as shown below for non-tubercular prisoners working in the Wellesley Sanatorium Jail, Bellary.

Rice.	20 ounces.
Dhall.	3 "
Vegetables.	8 "
Oil.	½ "
Tamarind.	½ "
Onions.	½ "
Salt.	1 1/16 "
Curry Powder.	½ oz. on mutton days. - ¼ oz. on other days.
Milk for (Buttermilk)	2¾ oz.
Firewood.	1 lb.
Mutton.	4 ozs. on Mondays, Wednesdays and Saturdays.

The cost of the above diet works out to Rs.4-9-0 per head per mensem.

5. I furnish below the scale of diet prescribed for 'C' class prisoners for the information of Government.

Rice.	20 ounces.
Dhall.	5 "
Vegetables.	8 "
Oil.	½ "
Tamarind.	½ "
Onions.	½ "
Salt.	1 1/16 oz.
Curry Powder.	¼ oz.
Milk for conversion into buttermilk.	2¾ "
Firewood.	1 lb.

The cost of the 'C' class diet works out to Rs.3-13-7 per

per head per mensem. The cost of the Ordinary diet No.4 of the Special Diet for tubercular prisoners works out to Rs.5-13-11 per head per mensem.

6/ I am asking the Superintendent of the Wellesley Sanatorium Jail, Bellary, to follow the new diet now proposed in anticipation of Government sanction. The additional expenditure that will be involved, if the proposed new diet is followed is worked out below.

The difference between the new diet and the C.class diet is per head per mensem.	0-11-5	(4-9-0 — 3-13-7 0-11-5)
Per annum per prisoner ..	0-11-5 x 12 =	Rs.8-9-0
Total additional expenditure on the minimum number of non-tubercular prisoners recommended by the Superintendent	8-9-0 x 20 =	Rs.171-4-0
	or say	Rs.171/- per annum.

7/ I request that the new scale proposed for the non-tubercular prisoners detained in the Wellesley Sanatorium Jail for the performance of the said prison services may be approved, as the diet is considered quite necessary in the interest of their health.

Subject:- Non tubercular prisoners in the Wellesley Sanatorium Jail Bellary - Special Scale of Diet

The Wellesley Sanatorium Jail, Bellary, is a special jail for the confinement of prisoners suffering from pulmonary tuberculosis. The prisoners in the jail are allowed special diet scales. For the performance of prison tasks in the jail eg, sweeping, scavenging, drawing water and cooking prisoners from the local central jail are detailed for duty. It is considered by the I.G. that the non-tubercular prisoners who go to the Sanatorium Jail for daily prison duties should be protected against infection by giving them a more nutritive scale of diet than is allowed to the ordinary 'C' class prisoners. The cost of a 'C' class diet is Rs 3-13-7 and the scale suggested by the I.G. for the non-tubercular prisoners referred to works out to Rs 4-9- per head a month. The extra cost per year is estimated to be Rs 171/-. I.G. that there is no objection to the
